

Commonwealth Coordinated Care Project's (CCCP) three-way contract amongst CMS, DMAS and MCOs specifies required training topics that MCOs must ensure all providers receive. The target audience for this training content is the staff who will serve on the MCO Interdisciplinary Care Team (ICT), which includes case managers, therapists, nurses, and MDs.

The CCCP MCOs selected by DMAS (VA Premier, Anthem and Humana/Beacon) have agreed to:

- Accept any training provided by the other, with the exception of the MCO-specific Model of Care content.
- Accept an excel list of staff by CSB as a group attestation for required training.

CSB guidelines for complying with contract requirements for provider training

1. All Case Managers who have completed the DBHDS case management modules will only be required to view the **Model of Care** training for Anthem, Va. Premier and Humana/Beacon.
2. All other staff (therapists, nurses, and physicians) who have not taken the case management modules must take the **PROVIDER OVERVIEW TRAINING AND** all three Model of Care trainings for Anthem, Va. Premier and Humana/Beacon.
3. Direct identified staff to the CCCP training content posted on the VACSB website (<http://www.vacsb.org/required-ccc-training>) to review:
 - Every MCO's Model of Care (**required**)
 - **Any one** of the posted MCO's training content as needed from Step #2.

NOTE: While not required in order to submit your training attestation, staff may visit any of the MCO's training sites to view additional content, FAQs, etc. at:

- https://www.coursesites.com/s/ Humana_VA
 - <https://lms.netlearning.com/mynetlearning/vapremier>
 - <https://mediproviders.anthem.com/va/pages/home.aspx>
4. Designate a CSB point-of-contact person to coordinate completion of your MCO attestation (attached). Note: The CSB NPI number must be listed beside every staff name.
 5. By or before **May 14**, email your attestation Excel file to **ALL** MCO contacts:
